Permission to transmit invoices via the e-mail service:

In order to make the submission of invoices to their customers easier and timely, Metel Srl starting from the next billing will adopt the electronic filing of the invoice by e-mail. Although carried out through an electronic means, such submission does not give the bill the character of "electronic invoice", so the invoice sent by email must be saved and printed for the purposes envisaged by law:

The printed document is the original invoice and no other documents will be sent by our administration, as this mode of transmission has been on several occasions expressly recognized as valid by the Revenue Agency and other competent authorities.

The undersigned _____ in the capacity of _____

for the company _____

All Metel invoices will be sent to you in XMLB2B format to the Codice Destinatario or PEC address that you will kindly write in the space below.
