The slot therein are valid for:

- Receiving and sending documents;
- all types of documents: order, order confirmation, delivery notes, invoices.

Once you reach the G slot, there aren't limits on the exchangeable documents

Any traffic inventories of documents purchased and not used, will not be recognized in the following year, and not reduced in the next invoice.

In case of excess respect the band purchased, you will receive a monthly update with the numbers of documents exchanged with your customers and providers, at the end of calendar year you will receive the bill with the yearly excess amount.

The following year the traffic bill will be computed on the slot achieved in the previous year.

Are excluded the one-time costs of document mapping, to be agreed with your Software House.
